Goy Chase on the Stump.

Gov. Chase made a characteristic speech at Sandusky the other day in which he talked in his usual fatherly strain, about the domestic affairs of Obio and evidently wanted his audience to believe, that his adminis. tration was all that saved the State from ruin, during the past four years. After giv ing a short sketch of the use of the Republican party, and raking the Sub Treasury
System, fore and aft, he proceeded to pitch into the Legislature, for making appoints ments, which be declared, with becoming ments, which be declared, with becoming medically modesty, no body but himself had any right. to make, and when he had got his feelings twenty-five cents. sufficiently worked upon this subject he en A Yankee schoolmaster named Comstock sufficiently worked upon this subject he entered into a vehement declamation against,
what, he was pleased to style, partisan legislation. This point he dwelt upon at some

Save Your Eye Sight.

MR. BORNSTEN.

To abstract the public funds, without an appropriation, is a dangerous precedent in any case: the recent detalcations showed that the treasury could not be too rigidly guarded, and it has unsaic as well as unwise to weaken or abelian any of the safeguards to which it was surrounded.

But even the necessity of an extra necessity, was extremely doubtful. In the Public Wests bill, passed the 6th day of last April, an error involving a much greater amount occurred, without producing any such necessity. According to the provisions of that bill, in case the Public Works of the State were not leased, on the 14th and the State were of the safe, on the 14th and the State were not leased, on the 14th and the State were the individual conditions. Electropathy.

To all those who desire Treatment upon my System of Practice for the Cure of their Diseases. Item of Practice for the Cure of their Diseases.

I H1S is to certify that I have given Prof.

W. P. Dogrett a full course of Lectures upon
the subject of Slectronathy, and have fully instructed him by practice upon a sumber of patients in
the general and direct application of Electro-Galvanism as a Diagnostic and Theorequitic agent. I
have also examined him with reference to his Physidogran and Pathological attainments, and and
him thoroughly qualified therein. I therefore appoint him my successor in Dayton, to practice upon
my System of Therapeuties, and commend him to
the entire confidence of all those who desire skillful treatment for their diseases.

DR. CHAMBERLIN. CREW & WARFORD,

DR. CHAMBERLIN.

The application of Electro-galvaniam to the human system for diseases by medical men in our country, have never (except by accident) produced such favorable results as work expected, hence practitioners, not a sowing that in its application it was govered by fixed and immutable laws, have had their confidence in such an agent leasemed upon almost each application in their way. Becent demonstrations, however, in our own city, and in neighboring places, have produced results the most convincing, that when applied according to the principles regulating it to the human system, it realizes to the operator the most sanguine experiments of the direction of health.

The diseased are respectfully requested to call on me at No. 205 Tird street, Daylou, O. Physicians who have objections to make against the practice, are requested to address me, staining in fall their objections, and I will, assoon as the weather will admit, address them and the public generally upon the selence, and meet their objections and show more fully the claims this accence has as a Therapseute for human tills.

W. F. DOGGETT.
